Wright Treats Arrest as a Trifling Affair.

Professes Willingness to Return and Face Charges.

Lawyers Will not Permit Royalty Said to Have Had Hand in Pie.

*BY THE ASSOCIATED PRESS—A.M.]
NEW YORK, March 16.—Whitaker Wright, arrested yesterday, was taken to the Federal building today to be arraigned before Commissioner Alexander. On his way to the Federal building Wright made a statement in which he said:*

"I shall waive all extradition formalities to go to England as soon as the government matures all arrangements. The story about the sum of money lost is all bosh," he said. "The amount lost, altogether, did not exceed £40,000. This all turns toward the time when the crash came. The dividends paid out under a secured capital, consisting of mining property, were more than the capital itself of the Globe company. The Boer war, with its financial irregularities, contributed largely to destroying the value of mining properties. This is the plan to destroy, for the time being, the market values of mining properties."

The Globe company today would be on its feet had it not been for the subway, or underground road in London, but unfortunately in an unwise moment the Globe became interested in this, and the crash came. The money was legitimate, but the two years ago I went over the books carefully myself with the receiver, and the matter was laid flat in all its entirety before Parliament.

The Attorney-General for the crown told me when I had a clean bill of health, and was not culpable in any way. I am an Englishman by birth, but I am an American citizen. I have three children living with my wife in England, and three are born in Philadelphia. Miss Browne is my niece, and is my sister's child. She came here to visit friends in Philadelphia. I came here to examine mining properties.

Wright was arraigned before United States Commissioner Alexander, and the hearing was adjourned until Wednesday.

Maurice Untermyer appeared for the prisoner. Asked whether he waived extradition, Untermyer replied:

"My client states that personally he would take a steamer immediately for England, and answer these charges, but on the advice of counsel, he will await further proceedings on the part of the British government. Mr. Wright also denies that he is a fugitive from justice. He has been absent from England for three weeks in Paris, but insists he is not a fugitive from justice."

Charles Fox, legal adviser of the British consulate, asked for an adjournment for two weeks, pending the arrival of papers from England. This was opposed by counsel for the prisoner, who, after consulting his client, said:

"I think an adjournment until Tuesday or Wednesday will be sufficient. Mr. Wright insists he is willing to return to England at once." Commissioner Alexander then set the hearing for Wednesday. Nothing was said about bail for the prisoner.

When asked directly whether Wright was going to waive extradition, Untermyer said the adjournment was due to the fact that the attorneys might consider what they would do.

The formal complaint against Wright charges him with fraud in publishing false statements of accounts of the London and Globe Corporation.

Miss Florence Browne, who arrived from the Albemarle Hotel later in the day, went to the office of United States Marshals Henkel with her complaint. She was not present.

Miss Browne, while she repeatedly asked to be excused from answering questions, made partial replies when questioned by representatives of the press. She said it was the desire of Wright, as far as he knew, nothing about his financial affairs. Mr. Wright, said she, did not bring a large sum of money with him. It is not the custom of English to travel with large sums, she said. "There seems less of credit or drafts, instead of carrying large amounts of money. I have only a small sum with me, enough to carry me along, but, of course, I am able to send any amount I need for any purpose."

Miss Browne said she would return to England very shortly.

FLOVER'S STATEMENT.

*[BY THE ASSOCIATED PRESS—A.M.]
LONDON, March 16.—John Flover, chairman of the Shareholders' Committee, which instigated the prosecution of Whitaker Wright, the director of London and Globe Finance Corporation, who was arrested yesterday on his arrival at New York from France, says:*

"I see Wright is quoted as saying he is a powerful protector of an exiled quarter. That statement is new to us. It is the keynote of the whole case. Prior to the failure of the London and Globe, certain persons maintained Wright had his possession of a powerful position in the English royal family, showing that were mixed up in his transactions. We have no documentary proof of this. Wright, himself, is probably the only man in the world who could prove it. If he has such letters, he ought now to be in the possession of the New York police, as we suppose they searched his effects, and Wright is not likely to be in such a powerful weapon as that statement.

One of the demands that will be presented by striking casket makers to their former employers at a conference to be held tomorrow provides for placing the union label on coffins.

LAPOCHE (Mich.) March 16.—[Exclusive Dispatch.] Mrs. Henry Crowe yesterday recognized in a man who applied for board her brother, Edwin C. Hall of Chicago, whom she had mourned as dead for eighteen years. Mrs. Crowe believes the reunion is a result of her prayers for his return, which she had offered since the day of his strange disappearance.*

NOT SECRETLY MARRIED.

Commons, said the Crown would pay the cost of the extradition of Wright, and the payment by the Crown of the whole expenses of the proceedings would be considered as compensation, however, would be left in the hands of the official receiver of the London and Globe Corporation.

WRIGHT'S LAWYERS TALK.

*[BY THE ASSOCIATED PRESS—P.M.]
LONDON, March 16.—The London lawyers of Mr. Wright held a conference today with Samuel Untermyer, of a New York law firm, who is here, and who has frequently represented Wright's interests in America. The following statement was subsequently made to the Associated Press by the lawyer there.*

"While Wright is undoubtedly anxious to return to England and face the charges, the question of the advisability of so doing must be decided by his legal advisers. We hold that there is a doubt, in view of the Attorney General's position, that Mr. Wright's extradition would not be a breach of the treaty. All the circumstances combine to prejudice a trial at the present time. We regard the trial as a trifling affair.

6 o'clock. This afternoon warrants
were sworn to by P. H. Lohman for the
arrest of W. E. Davis, H. J. Bottomy

plicity.The affair grew out of the labor trou-
bles between the miners of Yer Bet and
Lowell Hill and principally over a let-
ter appearing in a Sacramento paper
two days ago, alleging that the hy-
draulic mining laws were being vio-
lated and instituting that the anti-
mining commissioners were aware of the
procedural proceedings.The letter was signed Dan Levinson,
who is much more here. Suspicion
was directed to W. J. Lohman as the
writer of the letter, but he denies any
knowledge of it. The letter was de-
scribed as being absolutely false and nat-
urally worked up feelings among the
men of that locality Saturday night
and the Lohman brothers attended
a meeting of the Miners' Union at
Yer Bet and on their way home
walked out through the old cement

STEAMER CITY OF SEATTLE.
BY THE ASSOCIATED PRESS—P.M.VANCOUVER (B. C.) March 16.—While both vessels were enveloped in a dense fog, the Pacific Coast Steamship
Company's steamer City of Seattle ran down the British bark Bankleigh this morning, and caused damage which is variously estimated at between \$500 and \$600.

The Bankleigh was moored beside a wharf at the time the City of Seattle ran into her, and damaged her port side, twisting her steel plates and jamming her starboard side in. The damage to the bark is estimated at \$500. The City of Seattle was strained forward.

BY DIRECT WIRE TO THE TIMES.

INDIANAPOLIS, March 16.—[Exclusive Dispatch.] The Independent American Mechanics' Union, formed and incorporated by non-union men, and with the object in view of resisting the aggression of organized labor, filed articles with the Secretary of State today. It is understood that the organization grows out of trade troubles at Anderson, where the new union has its headquarters, and from which it proposes to extend to other cities and eventually form a State organization.

Among the objects of the union, as set out in the articles of incorporation, are: "To encourage industry, economy, thrift and honesty among its members; to maintain amicable relations between employers and employees of labor; to prevent unjust or unreasonable discrimination against any of its members by any person, combination, or conspiracy, to prevent such members from securing employment in any branch of industry, and to protect and defend its members against any and all attempts by any person or combination of persons to abridge the inalienable right of all mankind to work for such wages as may be mutually satisfactory to the individual workman and his employer."

NEW HAVEN (Conn.) March 16.—President Hall of the New York, New Haven and Hartford Railroad, has sent a communication to the joint committee of the employees of the road announcing that he will meet the joint committee tomorrow afternoon. The joint committee has accepted the invitation and therefore will not announce the result of the poll of votes taken during the last two days on the question of strike.

It is said it is the idea of President Hall that the meeting is to be informal and for discussion of the reasons why the company has not been able to formally meet the joint committee.

Telegraphers have been consolidated under the name of Commercial Telegraphers' Union of America. This action was the result of a meeting of arbitrators for the two organizations, which had been in progress for several days. The two bodies are to be affiliated with the Federation of Labor.

CRIPPLE CREEK THREAT.

DENVER, March 17.—A special to the Republican from Cripple Creek says that at a meeting of the Cripple Creek District Miners' Union, which has been in session for several days, decided to notify the mines now shipping ore to the mills of the United States Reduction and Refining Company to cease doing so by 4 o'clock this afternoon, or a strike of the miners will be ordered.

CHEER CHAMBERLAIN.

GIVE SUPPORTED IN HOUSE OF COMMONS
BY THE ASSOCIATED PRESS—A.M.
LONDON, March 16.—By Atlantic Cable. Colonial Secretary Chamberlain's entry into the House of Commons today was signalized by an unusually cordial reception from the Conservatives and Unionists, while Liberal and Nationalists maintained a significant silence. Voices of cheering from the government supporters greeted the secretary as he entered the house, and they lasted several minutes.

Mr. Chamberlain looked much worn, but was obviously in the best of spirits as he rose to inform a questioner that he was afraid it would be difficult to collect and publish all his South African speeches. He was ashamed to say he had made about 100, and had had no time to read them, much less collect them.

There was a vociferous Liberal counter demonstration when Mr. Chamberlain, the new Colonial master for Woolwich, who recently won that election for the opposition, took his seat.

CONSUL JOHNSON'S SUPPRESSION.

WASHINGTON, March 16.—The Post says that the President, it is understood, had decided to name a successor to Consul Harry A. Johnson, who, since 1885, has been United States Consul at Venice, Italy. At the time that the officers of the cruiser Chicago went ashore last summer, and became involved with the Italian authorities, Consul Johnson was absent, leaving his quarters for his action in the matter, but it is not known whether this has anything to do with his suppression.

WASHINGTON BRIEFS.

New Los Angeles Bank.
WASHINGTON, March 16.—[Exclusive Dispatch.] The Comptroller of the Currency today approved the application of L. N. T. E. Carr, Charles N. Flint, Leopold Winter, Joseph Burkhardt and others to organize the Commerce National Bank of Los Angeles; capital, \$300,000.

Jacksonville Bank Fails.
WASHINGTON, March 16.—The First National Bank of Florida, at Jacksonville, has been closed to order of the Comptroller of the Currency. The failure of the bank, it is said, is due to losses which absorbed the entire capital and reserves, leaving a deficiency in assets which are of a poor character and poor grade, consisting largely of phosphate and lumber machinery, insurance policies, real estate, etc. The bank has liabilities of \$375,820.

SOUTHERN PACIFIC'S POLICY UNAFFECTED.

BY DIRECT WIRE TO THE TIMES.

NEW YORK, March 16.—[Exclusive Dispatch.] One of the most influential directors of the Union Pacific Railroad, who was bought by Talbot S. Taylor and James B. Taylor, would not cause any change in the policy controlling the affairs of the Southern Pacific system. It was not the intention of E. H. Harriman and his associates, this director says, to discontinue the extensive work of improvement now under way, nor to alter the method of financing that work. It is rumored in Wall street that an informal conference of the Southern Pacific directors had been arranged to discuss the situation.

At the office of that company, Secretary Millar said that there was no meeting of Southern Pacific directors to be held immediately. A report that the "harmony conference" between the representatives of Harriman and representatives of James R. Keene's pool was being arranged was stoutly denied by all parties in interest. Harriman's friends said that so long as the Keene pool maintained its antagonistic attitude, there could be no ground for a conference. Representatives of Keene declared that the suit at issue had been carried into courts for the purpose of having them settled there, and nothing else.

The suit was made today that even if the Union Pacific Railroad Company is enjoined from voting its \$90,000,000 of Southern Pacific stock at the annual meeting of that company, Harriman and his associates will retain command of the situation for the reason that an annual election of Southern Pacific officers can be effective unless a majority of the entire capital stock of \$195,000,000 is voted.

Inasmuch as the Harriman management is said to hold proxies for about \$20,000,000 of stock, exclusive of the Union Pacific's holdings of \$30,000,000, it is argued that the minority stockholders could not hope to get enough of the shares to take over control, and as far as there is no change in the present board of officers of the Southern Pacific, the Harriman interests will remain in absolute control.

ESPEE BONDS ATTACKED.

CENTRAL PACIFIC PEOPLE SUE.
BY DIRECT WIRE TO THE TIMES.

NEW YORK, March 16.—[Exclusive Dispatch.] The United States Circuit Court was asked today by two of minority stockholders of the Central Pacific Railroad Company, the California corporation, to declare that the \$120,000,000 of bonds issued by the Southern Pacific Company and Central Pacific Railway Company, the latter corporation organized under the laws of Utah, the court is also asked to place the same stamp upon \$20,000,000 of the preferred stock of the Central Pacific Railway Company, secured by Hens upon the Central Pacific Railroad Company's properties.

The action was brought by Walter Morehead and G. Emily Reynolds as plaintiffs. They declare that they own 110 shares of the Central Pacific Railroad. The principal basis of action is the accusation that under the laws

understanding that all the Democrats will support the two amendments agreed upon, but that after they are acted upon individuals shall be at liberty to vote for or against the treaty as they may desire. It is anticipated that the Senate will support some of Senator Morgan's individual amendments, but that they will do so as individual members, and not as members of the Democratic caucus. The Republicans, who participated in the caucus, say that, whether amended or not, the treaty is sure of ratification.

REFERENCE TO MEXICO.

WASHINGTON, March 16.—With reference to the amendment including Mexico in the declaration of territorial limitations, there was much debate. Many of the Senators advocated an amendment to the effect that the Senate would support the proposal entirely, especially all of them agreeing that it had no place in the agreement, but it was concluded that, as it had been incorporated and probably would remain, the best course would be to modify rather than remove it. Mexico was incorporated because it was urged that the people of that country are as sensitive with regard to any other country about maintaining the integrity of their country, and also are as much entitled to the guarantee as any other.

There was substantial unanimity with regard to the twenty-third article, but there was much difference of opinion as to the language of the proposed amendment, and a complete agreement on that point was not reached until the adjournment of the caucus was forced by the convening of the Senate. The amendment, as presented to the twenty-third article of the treaty, giving the government of the United States the exclusive right to police and protect the canal, is practically that offered by Senator Morgan yesterday. It was the only verbal change. This amendment makes the control of the United States over the canal absolute and exclusive, and its right to police and protect the same is under no circumstances dependent upon the request of the Republic of Colombia.

The other amendment agreed upon was to article four of the treaty, relating to the policy of the United States toward the Mexican and Panamanian republics, and disavows any intention to impair, in any way whatever the sovereignty of Colombia or to increase its territory at the expense of Colombia, and to make it nearly dependent on the peace and prosperity of the United States.

After the adjournment of the caucus Senator Gorman, as chairman, and Senator Carmack as secretary of the caucus gave out the following statement concerning the last-mentioned amendment:

"This amendment qualified the language of the treaty to the extent of making a simple affirmation of the establishment of a policy of the government of the United States against the policy of territorial acquisition at the expense of sister republics in America and acknowledged the sovereignty of the Republic of Colombia.

The language of the treaty is also broadened, in that the amendment asserts this policy of the United States with reference to all the American republics, while the treaty confines its pledges to those of Colombia and South America. The new amendment does not commit the United States to any further action in Central America, leaving a deficiency in assets which are of a poor character and poor grade, consisting largely of phosphate and lumber machinery, insurance policies, real estate, etc. The bank has liabilities of \$375,820.

ITINERARY IN FULL.

BY THE ASSOCIATED PRESS—P.M.

BUSINESS.

The local clearings yesterday, covering the period since Saturday noon, aggregated \$97,972.68, as compared with \$93,933.68 for the corresponding period of last year. Business is reported active everywhere.

Extreme weakness in corn caused a decline in wheat near the close, at Chicago. There was enormous liquidation of May corn. Discouraged bulls threw stocks overboard at New York when call money rose to 7 per cent. A sudden upward spurt of Southern Pacific to 63 caused shorts to cover hastily in several lines.

SMOKING THEM OUT.

The Isthmus-canal question appears to be coming to a climax. For many years the members of the opposition have remained in the brush, doing effective guerrilla work, while concealing their identity and their real object. Only once did one of them come to the front, in the person of the late Collis P. Huntington, who, with blunt frankness, declared that the country did not need an isthmian canal. Better an open sea than a false friend. These fellows, who have been trying to stave off the canal project in the back, are far more dangerous to the country than an outspoken man like Huntington.

The conspirators now see that the situation is approaching a crisis, and that they must make a last desperate effort in opposition, even at the risk of showing their hand. The people have long suspected that the transcontinental railroads are bitterly opposed to the construction of a canal, and the foundation of the people's suspicion is now being laid bare. First, the conspirators set up the Panama project against that of Nicaragua, not that they had any liking for the former, but because they hoped that the infection of the new complication would retard progress. Then, when it looked as if the Panama route might be selected, they brought forward another scheme—the Darien Canal, with its big tunnel, several miles in length. Dispatches from Washington state that lobbyists connected with the various railroad and defunct-canal enterprises are swarming there. It is also reported that there is a prospect of detection on the part of Republican Senators.

One thing should be clearly understood by those who are scheming against an isthmian canal. It is a project upon which the people of the United States have set their hearts. It is an enterprise of the most vital importance to the country at large, the construction of which has been all too long delayed, and against which the opponents are unable to advance any open argument. The American people are in no mood to tolerate any further procrastination, and those Senators who lead themselves to the furthest extreme of such tactics must expect to be marked as men who are enemies of the public good.

COLLEGE VANDALISM.

A press dispatch from Princeton, N. J., gives an account of the disfigurement, beyond the possibility of successful restoration, of one of the large bronze lions which guard the entrance to the historic Nassau Hall, in that city. The bronze figures were presented to the university by the class of 1879, of which President Wilson of the university is a member. The act of vandalism was committed by students and graduates who gathered on the steps, at a late hour Saturday night, "to sing their class songs and engage in a little celebration."

This is only one instance out of many in which the hilarity (to use as mild a term as possible) of college young men has resulted in the commission of serious acts of vandalism, such as every right-minded young collegian should be heartily ashamed of. It is not expected, of course, that where large numbers of young men are brought together, as in an institution of learning, all will be staid and dignified under all conditions. To expect this would be unreasonable. Boyish pranks of various kinds, under such circumstances, are inevitable, and they are comparatively harmless if they are not of such a nature as to do injury to persons or property. When these "pranks" become so extravagant as to injure property or do violence to the persons, they become misdemeanors, or even felonies, according to the nature and extent of the offense. The mere fact that they are committed by "college boys" does not operate to palliate the offense.

Misdeeds of the nature referred to have been dealt with far too leniently in the past. Punishment has generally been left to the college faculty, when, in many cases, it should have been administered by the courts. This fact probably explains, in part, at least, why offenses of this nature have been so numerous in nearly all college

towns. California has not been wholly exempt from the evil, and there have been students' "pranks" even in Los Angeles which should have brought the blush of shame to the cheeks of the participants.

To be a gentleman, in the true sense of that much-abused word, is one of the grandest attainments that any man can reach. Young men who go through college without learning this important truth miss a vital part of their education. It is to be feared that the spirit of recklessness which stops at no extravagance—not even at vandalism like that at Princeton—is increasing among students in our educational institutions, both great and small. It is a bad and most deplorable tendency. College authorities should do their utmost to suppress this evil tendency, and the civil authorities should take a hand in all cases which are sufficiently serious to call for punishment by the courts.

RHODE ISLAND'S DISGRACE.

The era of bribery and political debauchery through which the State of Rhode Island is passing, as related in dispatches from Providence, is a deep disgrace to that commonwealth. The state of affairs described seems almost beyond belief. But the fact that publicity has been given to the conditions existing is a hopeful phase of the situation. In such matters, publicity is the first necessary step toward reform. When the people of Rhode Island become fully convinced that things are as bad as they have been represented to be, they will probably rise up in their wrath and decree that the whole gang of hoodlum politicians and thieves and bribe-takers and bribe-givers shall be relegated to the rear, and that decent men shall come to the front in the management of State affairs.

Mr. Arthur Pue Gorman may be a great statesman, but he isn't quite skillful enough to steer the Democratic ship away from the rock that looms up in Nebraska, and threatens shipwreck every time the old schooner attempts to venture out of port.

Some discussion is now being had as to what we should call the new convention hall that Los Angeles proposes to have in her business as soon as a bond issue can be prepared. What is the matter with "Talkatorium?"

St. Louis appears to be sending forth a feeling to ascertain how a further postponement of the big exposition is to be taken. For our part, here in California, guess we can wait, as we are pretty busy ourselves.

There are enough enterprises planned, and under way, in Los Angeles to keep up the present delightful bustle in this town if nothing more in that line were to be suggested for a year or two.

The southern negro question may be a good enough question for Senator Fairbanks to get the Republican nomination on, next year, but we have serious doubts about it.

It will now be interesting to see what particular section of Southern California will make a stab for the first boudoir to be constructed under the new boulevard law.

Who shall presume to say that California's last legislative session wasn't a success when there were eighty-four more bills introduced than there were in 1901?

It seems almost as difficult for the Chicago Democracy to rid itself of Carter Harrison as it is for that city to divest itself of the odor of the scalped hog.

The Democracy has to spend so much time in the placation of Bryan that it hasn't any time in which to demolish the esteemed enemy. Hard times, those.

The baseball scrap is certainly leading to some mighty high-class free advertising of the national game, at all events.

We still have a few hold-up men in our midst who would look simply great as prison decorations.

AS VIEWED FROM THE MEXICAN STANDPOINT.

[From the "Anglo American" Mexico, March 8, 1902.] The Los Angeles Times, a newspaper which has a considerable circulation throughout Mexico, has the Typographical Union on its hands. That is to say, a number of typists have declared against The Times by the Typographical Union, and every effort is being made to force advertisers to quit The Times. I know nothing about the merits of this particular case, but in view of the fact that The Times is an excellent and a strong paper, and that a lot of the members of the union ought to be in jail, I am inclined to sympathize with the proprietors of The Times. There is always a way to "drive the rascals out," and the people can find it if they persist in the quest.

The boycott is all right and proper, according to the advocates of trades unions, and their methods, but all wrong when the boycott is on the other foot, so to speak. But it is right, trades unions to demand that those but unions shall be employed. It is difficult to understand why it should not be right for employers to refuse to employ trade unions. The rules of logic and common sense rule in matters of this sort, as well as of other sorts. If this is the free country that Americans claim it to be, the law must stand behind the man who desires to employ the men who wants to hire, and to defend the men who are willing to work for him, by mutual agreement. If the law will not afford citizens this protection, then republican government is a farce and anarchy is in the saddle.

The fate conspire in favor of the greatest Fiesta next May that Los Angeles has yet presented to the world for its admiration. The electrically il-

luminated floats are well under way and promise to be something in the gorgeous line that will beggar description and prove paralyzing to the understanding of the spectator; the springtime rains are coming exactly right to inaugurate a floral display that will be a world-beating prodigy.

Carpets and Rugs

Our spring showing is remarkable for its completeness as to weaves. As to grade, there we make a distinction, and carry none but the strictly reliable sorts—carpets and domestic rugs from mills whose names are a guarantee of excellence; Oriental rugs of the class that never have to seek a market through auction-room scramble. Everything marked in plain figures; anything can be bought with the positive assurance that it's grade is exactly what it is claimed to be.

Linoleums for the office floor, for the bath-room and kitchen—a variety of patterns in every worthy grade.

MINES AND MINING.
ARIZONA FIELD GREAT
FOR LOCAL MEN."SNAPS" FOR MANUFACTURERS OF
MINING MACHINERY.

Strike reported at Monico—Ludlow
Bells a New Incorporation—Big Deal
of Desert Property Still Pending—
Local Mining Stocks.

Large consignments of mining machinery will soon be headed toward the camps of Arizona. Whether or not Los Angeles will supply any of the necessary steel and iron will depend largely on how much local manufacturers ask for their goods.

It is known in dealers in machinery

that representatives of several large operating companies are in the city in the interest of their respective concerns, and that their mission is to buy machinery.

"We look to Los Angeles to supply us a little cheaper than any other supply center, owing to a slight reduction in freight charges," said a prospective buyer yesterday. "Firms in this city should be able to make better bids than those of Phoenix, and we are doing so. Now is the time for them to get in, as there will be more machinery placed in the Territory in the next few months than ever before. Buildings have been erected, and other improvements are to be made. The same camp prevails in almost every camp in the Territory, and at present the field seems almost unlimited."

At the Standard mines on Chase Creek arrangements have just been completed for the installing of a new mill, which will cost \$100,000. Buildings have been erected, and other im-

provements are to be made. The same

camp prevails in almost every camp in the Territory, and at present the field seems almost unlimited."

STRIKE IN MONICO.

Another rich strike has been made in the Monico mining group of six claims in the eastern part of Arizona.

The company shaft has been sunk to the property 175 feet deep, and a drift has been run on the vein over sixty-five feet.

The ledge is eight feet wide and is said to sample \$12 gold per ton.

There are ten or twelve claims, and has recently struck good ore. The parties negotiating the Bagdad know

it has offered \$300,000. It is more

than probable they will yet come together, both parties making concessions.

The price asked for both is

\$1,500,000.

Cure Cataract by Nature's Own Meth-
od—Every Breath of Hyomeyl
Brings Relief.

Nearly every one who has cataract
knows how foolish it is to try and cure it
by drugging the stomach. Temporary
relief may be given, but a cure seldom
comes.

Until recently your physician would
have said the only way to cure cataract
would be to have a change of climate; but
now with Hyomeyl you can carry a
health giving climate in your vest
pocket and by breathing it a few times
four times a day soon cure yourself.

The complete outfit of Hyomeyl costs
but \$1.00 and consists of an inhaler
that can be carried in the vest pocket,
a medicine dropper and a bottle of
Hyomeyl.

The inhaler lasts a lifetime, and there
is enough Hyomeyl for more than a month's
treatment.

Hyomeyl is the only one that fol-
lows nature in her method of treating
cataract.

The complete outfit of Hyomeyl costs
but \$1.00 and consists of an inhaler
that can be carried in the vest pocket,

It is an accepted fact, a proven fact,
that cataract is a germ disease; and
it is also a demonstrated fact that
Hyomeyl kills the cataract germ.

It is the only thing that
cures cataract.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Long Time Waking Up.

Paul Reichman of No. 224 South Main street reported to the police yesterday that his room was entered by a thief Wednesday afternoon while he was asleep. A gold watch and \$4 were secured.

Purchased Paintings.

Cpl. and Mrs. Holmes, on a recent visit to the studio of Paul de Lapeyre, purchased an oil painting and a water color for \$200, proposing to have the pictures in their "Amelia Pauses," at Salt Lake City.

Fugitive Arrested.

Fred Crossman, wanted in Ogden, Utah, for passing two forged checks, was arrested yesterday evening by detectives. The arrest was made through a description forwarded to the local police department several days ago by the Sheriff of Ogden.

Lawyers Talking.

An argument was commenced yesterday afternoon in the United States Court before Judge Wellborn, in the case of Lyons et al. vs. Wells, Fargo Co. It is a action for damages alleged to have resulted from the delay in delivering a bank draft that was to be used in making good an option on a mine. The case will go to the jury sometime today.

An Alleged Bluffer.

Christian Jantzen, who is now out of jail under an \$800 bail on the charge of selling an obscene book on the streets, was arrested yesterday on a warrant sworn out by the assistant United States attorney, charging him with intimidating a witness. He was arraigned before Commissioner Van Dyke and released on \$300 bail. This second charge is an outgrowth of the first one.

Veterans for Encampment.

J. S. Rosecrans Camp, No. 2, Sons of Veterans, at its regular monthly meeting in Odd Fellows building last night, adopted unanimously a resolution requesting the Division Council to vote for the Annual Encampment at the place and time of holding the Southern Annual Division Encampment. W. M. Harshberger, organizer of the Modern Woodmen, was mustered as a new recruit. Sixteen uniformed members of the Long Beach Camp were present.

Landmarks Club.

The Landmarks Club, which is engaged in the laudable work of preserving from further decay and vandalism the old missions and other historic relics of Southern California, will hold a meeting at the Woman's Club House, No. 940 South Figueroa street, at 8 p.m. Saturday evening. All interested in the movement are invited to be present. Charles F. Lummi will deliver an address. Illustrated with stereopticon views, and a collection of Jorgenson's paintings of the missions of Southern California will be on exhibition.

Auto Show and Race Meet.

The auto show and race meet to be given during Fiesta week under the auspices of the Cycle Board of Trade, is now an assured thing. F. Alonso Cook, who has made the auto hobby in Farland, Lawson and other crack riders of bicycles and racing machines, and they have expressed a desire to come here and race. The object of the auto show is to demonstrate the value of good roads, and this alone should make it a successful one. Mr. Cook has opened an office in the Copp building and all intending entries should be addressed to him.

No Trading Back.

In the United States Circuit Court yesterday Judge Ross handed down an opinion in the suit of the plaintiff to remand to the State Court the civil suit of Thomas Fogarty vs. the Southern Pacific Company. It is a damage-suit originally brought in the Superior Court, in which a man named Neilson was named as defendant. The plaintiff dismissed the suit as to Neilson and then defendant was granted a transfer of the case to the United States Court. Fogarty's petition to have the suit remanded to the Superior Court has now been denied by Judge Ross.

Not Forgotten.

Sergeant Frank Wiggins of the Chamber of Commerce has received a letter from St. Paul, Minn., from Grant Hagar of the Executive Committee that was in charge of the recent Dakota editorial excursion to this state, in which the sergeant makes the excursion papers are conveyed to the people of Southern California in general for their hospitable treatment of the excursionists. Mr. Hagar declares that in the 700-mile journey of the party through thirteen states, this place had so many points of interest to our party as Los Angeles, and no people received us more cordially or entertained us more hospitably than the citizens of your city. The Chamber of Commerce is granted in advance any advertising space within reason, in any of the papers represented on the excursion.

For the College Boy Athlete.

EXERCISES FOR HIM.

HOW TO TRAIN IN NEXT SIX MONTHS TO ENTER SCHOOL ATHLETICS IN FALL—HOT START IN RUNNING—HOW TO USE ROWING MACHINE—THE DIET—TRAINING MUST NOT INTERFERE WITH STUDIES.

By Albert Payson Terhune.

Athletic expert of New York Evening World, author of "Muscle Building," etc.

IN this final article I shall treat of the athlete who is about to enter college and hopes for athletic success there.

Such a boy finds the road smooth. Not that there is not a warm welcome for really good athletes in nearly every college, but because there are so many competitors for every position on crew, nine, track or football team that it is a sure case of the survival of the fittest.

The lad who has been the star athlete of his school or village comes to college with the idea that he will surpass as easily there as at home. He usually finds, however, at least fifty

CORRECT POSE IN RUNNING.

others quite as clever at his own specialty as he.

Again, many a freshman who has in him the material for a fine athlete, sees a less powerful man put into some team position over his head simply because the latter youth has "gotten into shape" more quickly. College coaches are often too busy to spend enough time on an aspirant who does not give immediate promise of at least moderately quick promise of success.

There are also many youngsters whom the "forcing system" in vogue at colleges will develop into good athletes at the same time failing to give them the roundness of strength and endurance which all real athletic prowess should be built. It is such men who break down, acquire "late heart" and die early. They have been introduced to an entirely new order of life without sufficient preparation and that is something to which nature never conveys.

With all this in view I write the present article to warn boys not to enter college athletics without previous practice, and I here urge the most important details of such practice.

TRAINING.

To the boy who has followed the foregoing lessons and who will for a year go through the exercises I have prescribed, college athletics will be an open book. He will be practically immune from injury, and will be eligible for a far higher position in his alma mater's athletic than than with the average "trainee." But, most important, no general exercise of any sort a boy may have taken, certain specific exercises should be learned in advance if he intends to compete for college honors.

If you suppose you intend to enter college next fall, you will therefore have at least six months in which to train. "Training" and "exercising" are two widely different things. Heretofore we

have been exercising. Henceforth you must train.

Exercise is like the flying of notes, chords and the music of the piano. Training is the application of such exercise by playing a difficult piano exercise. Do you see the difference?

The ground work of training is to bind wind in a sound body. If your body is not sound, college athletics alone. There can bring you nothing but harm. As for your wind, however, you can bring that to a state of perfection. If your wind is not good, you can never be a good athlete.

DEVELOPING WIND.

The deep breathing I have described will do more for the wind than will anything else. But running is the best exercise for wind and you will when a man starts in training.

Begin by running a mile a day. Increase this by a block each day until you get the distance up to 10 miles a day.

Run steadily—not with alternate fits of rushing and lounging—and start for

the last 200 yards of the distance. This you cannot do at first. Indeed, so slow you cannot run a mile without stopping. Such boys should begin with a half-mile, and increase the distance as rapidly as they are able, to one and one-half miles.

The reason it is so hard for beginners to do long-distance running is not so much the strain on the leg muscles as the fact that most lads don't know how to run. Here are a few hints that may make the task easier:

In walking the heel should always touch ground before the toe. In running the heel must never touch ground at all. In running there is never a time when both feet are off the ground at once. The toe alone, from the ball of the foot forward, should touch the ground, and the next stride should be a spring from the toe. Don't run "flat-footed" nor let the legs drag behind the body. The toe should sweep the ground at once.

Keep stiffness of motion in the legs. Avoid stiffness of motion in ankle, hip and knee. All of them should bend freely, and the entire body should move easily and completely with a drug.

Sleep nine hours out of the twenty-four. Never go to bed later than 10 p.m. Sleep in a well-ventilated room.

And above all remember that the college boy who makes a hit in athletics and at the same time scores a failure in his studies is defrauding himself, his family and his alma mater. Stud and athletics are not incompatible.

It is the student who should encroach on time that should be devoted to the other.

ALBERT PAYSON TERHUNE.

"Everywhere we see human wrecks," says Dr. Orison Swett Marden, "stranded in life because victims of the temptation to consider, waver and balance until the power to begin and execute the thing contemplated was dissipated."

"Decision Gets Things Done" is the title of his article to appear in *The Times* tomorrow.

EVENTS IN SOCIETY.

A charmingly-appointed wedding took place Sunday afternoon at the home of Maximilian J. Fleck on South Grand Avenue, where, in the presence of about seventy-five relatives and intimate friends, the daughter, Miss Maria, became the bride of Philip Newmark, M.D. The ceremony was performed at 2 o'clock by Judge Trask. The bride and groom were unattended, except by little four-year-old Josephine Goldwater, who, attired in white, looked quite as much like a fairy as the flower maiden she represented.

The double drawing-rooms were kept entirely in white and green, the ceremony taking place at the far end of the second, before an improvised altar of flowers and under a cluster of wedding bells. An orchestra rendered "Eliza's Bridal March" from "Loehengrin" as the party descended to the reception and advanced to the altar through an aisle of white ribbons. This was held in place on the one side by a group of young matrons and their friends, while the friends of the groom supported the opposite line. They were Mr. and Mrs. A. J. Goldwater, Mr. and Mrs. Henry Edward Woolner, Mr. and Mrs. J. Nemark, Mr. and Mrs. Oscar Lawler, Mr. and Mrs. Herman Levi, Miss Carolyn Hecht, Mr. Newmark, Miss Alexander, Mr. Schiff, Miss Campbell, Dr. Edgar M. Lazarus, "Love's Dream," No. 3 (Liste trans.) was played softly during the interchange of vows, and the "Lover's" "Bridal Chorus" was heard at the close. A programme of popular music was rendered during the informal reception that followed, and the subsequent dinner.

The bride was charming in an elegant princess dress of white point d'esprit made over white satin. The upper part of the sleeves and the yoke were of tucked chiffon, and the crushed bertha of the same that outlined the yoke, and which was caught in a bow at the bottom of the dress. The long veil of tulle that reached to the foot of the train, was sent by the bride to a friend in Germany. It was caught to the high coiffure with a diamond cross-set and a small bouquet of roses.

The bride's going-away gown was of tan etamine tailor-made, with which was worn a picture hat of black and white. Dr. and Mrs. Newmark will be away about three weeks, after which they will reside at No. 3915 South Grand avenue.

DRY-Beusch.

A marriage was solemnized at the residence of the bride's parents, No. 907 West Washington street, Sunday evening. Otto J. Beusch and Susie Drury were made man and wife. Rev. A. J. Drury, uncle of the bride, officiated. Only relatives were present. The bride was attired in dove-colored chaste, tailor-made, white hat and gloves and a matching bertha. The groom, Mr. Miner on Scarff street. Tomorrow Miss Adelia Brown will entertain for her.

Mr. and Mrs. A. W. Rhodes were entertained at luncheon on Saturday last week at Hotel Maryland, Pasadena, by Mr. and Mrs. A. R. Flower of New York, who are touring Southern California. Mr. Flower is a brother of the late Gov. Roswell P. Flower, and Miss Lydia Jacoby, who has been visiting relatives in New York City and other eastern points during the past year, returned home Sunday.

A special programme will be given tomorrow at the Ruskin Art Club, 101 North Spring street, during a class in the study of William Morris and "L'Art Nouveau." Each member is privileged to bring a guest.

The Friday Morning Club will entertain with the regular meeting on Saturday at the Women's Club House.

The friends of Mrs. Walter W. Martin, who will leave shortly to reside at her home on Rich Street Saturday afternoon, with a kitchen shower. The time was unusually quiet, and dainty refreshments were served.

At a meeting of Minnesota people held Monday, Rev. J. F. Chaffe, Frank H. Holmes, Gen. Joseph H. Baker, and A. H. Neal of Pasadena were appointed a committee to arrange the details of a basket ball to be held at Long Beach Saturday. They will also prepare a constitution and by-laws of an organization to be called the "Minnesota Association of Southern California."

The members of the Golden Rod Club met at the home of Mrs. J. R. Atchison at No. 836 East Sixth street. Friday afternoon, Mrs. Clark and Mr. Atchison were guests of the club.

At 7 p.m. an elaborate dinner was served in the dining-room, with covers and napkins of white silk.

The bride and groom left for a few days to tour in the Southern States, after which they will make this city their home.

The bride is a San Francisco lady the groom being well known to Los Angeles residents, with a wide circle of friends.

The son of the groom, C. E. Brain, of the Brain-Harms Optical Company, acted as best man with the assistance of C. W. Brain and Otto F. Harms, the matrons being Mrs. C. E. Brain, Mrs. C. W. Brain and Mrs. Mrs. Harms.

CAPT. WHITE'S AMBITION.

Gov. Pardee Refers Applicant for Wardenship of State Prison to Board of Prison Directors—Governor's Policy.

Capt. H. K. White has received from Gov. Pardee an acknowledgment of his application for the wardenship of one of the State prisons. The Governor reminds the applicant that appointments of wardens are made by the State Prison Board, and that "the Governor is not supposed to interfere in any way with the selections to be made by the board."

"My policy is to refrain from interference in the prison affairs, "he says, "so that the prison board, with other boards and commissions, so far as the matter of appointments is concerned. Therefore you would do well to bring your candidacy before the directors, and whatever may occur, they will be the ones to all."

Anticipating that there will be a vacancy, Capt. White will file his application with the prison board for his position now held by Warder Asquith at San Quentin, or that of Wilkinson at Folsom.

REDLANDS.

UGLY FIGHT.
REDLANDS, March 16.—Will Johnson and Charles Snyder, who spend time in the Davis poolroom on East State street, had an ugly fight early Sunday morning. Snyder was severely cut with a penknife, and his injuries are regarded as rather serious. They were arrested on a charge of disturbing the peace, Snyder refusing to prosecute Johnson. They were playing pool when a difficulty arose, and they went outside to "have it out."

HERE AND THERE.

In charge of H. E. Montague, Southern Pacific passenger agent, Mrs. J. P. Morgan and party of four visited the city yesterday afternoon. Carriages were waiting, and they were driven over the heights and around the various points of interest, expressing thoughts on all that they behold.

Late in the afternoon their private car was attached to the "inside-track flyer," and the party conveyed to Pasadena, where Mrs. Morgan is staying.

A determined effort is being made to have domestic science taught in the public schools. The Contemporary Club is agitating the subject. If the school trustees will make provision for carrying out the idea, women propose that sufficient funds be defrayed the extra expense are forthcoming. This afternoon the club had "Domestic Science" for consideration, and Mrs. Dr. C. J. Crockett read a paper on "Personal Secrets of Cooking."

Mrs. Forsythe and Miss Forsythe of London, Eng., are here to spend the season.

John F. Neilson of Pittsburgh, Pa., is the guest of his brother-in-law, Rev. Dr. J. A. Marquis, and family.

If you want a thing well done, do it yourself. It is an old-time motto, but it applies to advertising. Telephone your wants to Red 1025, and our Redlands agency will take your ad, and send it to the main office.

Facts for Thinking People.

If you can't find what you want elsewhere, you can find it at Hamburger's; for as a progressive store we study the wants of the public and can always be depended upon to show the largest and best assortments of not only standard goods—those in every day use—but also the choicest of the new merchandise as soon as its popularity is assured.

Ours are the only local buyers who go into the Eastern markets four times each season; and Hamburger's is the only Los Angeles house that has its own resident buyers in New York, Paris and Yokahama—thus keeping in constant touch with the manufacturers of the world.

It is our progressive, honest methods which have won the confidence and patronage of the people of Los Angeles and vicinity during our business career of twenty-one years in this city—until today Hamburger's is the representative store of the people in Southern California.

Hamburger's policy is one of frank, earnest and efficient public service. We sell all merchandise bought in a regular way at the smallest margin of profit consistent with business judgment and safety, and are satisfied that quality considered, our prices are below competition. We naturally make it a big feature of this store to secure enormous quantities of merchandise from the manufacturer and wholesaler under regular prices because of some fortunate trade condition—and make them particularly attractive leaders. There is not a day in the week that we are not in position to feature some worthy line or lines of merchandise at prices no competitor can hope to duplicate.
